

SHOULD PHILIPPINES BE LEFT AS IS?

Hub Philanthropist Has Plan to Solve Problem in the Islands.

PEOPLE STILL NEED HELP

By Boston American Leased Wire. SAN FRANCISCO, Nov. 10.—After several months spent in China, Japan, India, Korea and the Philippines in the study of economic conditions and rural conditions in the Far East, Edward A. Fries, the Boston philanthropist, is again in America. Fries arrived in San Francisco Sunday night on the steamer Hong Kong Mail, and has no arrival here at the Fairmont hotel.

Fries returned to the United States in the belief that his time in the Orient has been well spent, and that his researches into conditions there enable him to take up his work in Boston with a clearer insight into the vital problems of the Philippines. Fries believes that the Philippines should be left as is, and that the people should be left to their own devices. He believes that the Philippines should be left as is, and that the people should be left to their own devices.

Education Problem.

Speaking of the Philippine question, Mr. Fries said last night:

"During the last few years of my life in the United States, I have been very much interested in the Philippines, and I have been very much interested in the Philippines, and I have been very much interested in the Philippines. I have been very much interested in the Philippines, and I have been very much interested in the Philippines. I have been very much interested in the Philippines, and I have been very much interested in the Philippines."

Has Own Theory.

"The United States, even as it did in Cuba, is attracting the attention of the world by the conditions as fast as men and women. I have a theory of my own, and I believe it is a theory of my own, and I believe it is a theory of my own. I have a theory of my own, and I believe it is a theory of my own. I have a theory of my own, and I believe it is a theory of my own."

Of National Prominence.

Mr. Fries obtained national prominence two years ago in England, when he was in England, when he was in England, when he was in England. He was in England, when he was in England, when he was in England. He was in England, when he was in England, when he was in England. He was in England, when he was in England, when he was in England."

Visits Stephens.

This morning Mr. Fries had a long conference with Lincoln Stephens, the well-known writer on municipal problems, and discussed with Stephens the labor and economic problems in California.

Mr. Fries left for Boston this morning and expects to stop only at Denver on his way East. He has been very much interested in the Philippines, and I have been very much interested in the Philippines. He has been very much interested in the Philippines, and I have been very much interested in the Philippines.

The forty farmers who were

I have fifty cows, and I today ar-

GREAT HORSE SHOW BRILLIANT AS EVER

RAIN KEEPS ATTENDANCE SLIM AT FIRST,
BUT THIRONG COMES OUT AT NIGHT.

By Langdon Smith.

NEW YORK, Nov. 10.—The twenty-third annual horse show opened at Madison Square Garden yesterday morning, but with its usual pomp and splendor. During the early hours it held but little more than the mere pomp of music and the splendor of decorations. There were several reasons for this. In the first place, society, always late, did not like the looks of the streets, soaked with cold, dismal rain.

Then there were the civil attractions of the grand opera, which had commenced during the late hours of the afternoon. It may have been that the guests of the automobile had something to do. But the automobile succeeded in crowding its way on far to the rear that almost horsemen are at last to be the more quiet of the show.

That question is being seriously asked to-day by officials of the National Horse Show in view of the small attendance on the opening day, which contrasted severely with the past records. Many guests, however, and a half-million dollars were attributed simply to the fact that the show is so late.

Hackney Judging To-day.
The city feature to-day was the judging of the Hackney class, and the preliminary trials of green hunters and jumpers who are to qualify for class.

Court Hackney, Baron of Miss Gladys Vanderbilt, is the chief lion of the show so far, and draws interest with the highest of the Vanderbilt brothers, Alfred and Reginald, he is much in evidence. In addition, the two brothers are the leaders in the Hackney class.

Gathering of Wealth.
There were variant and exorbitant prices here and there, but they will all be fixed at a later day. Nightfall showed that the Hackney show is a success, and the function, which places it on parade. Not that the social elite desire to place itself

NEW YORK, Nov. 10.—Above the din caused by a crowd which gathered in front of the home of Charles Schaffner, No. 30 Liberty avenue, after a fire had been discovered in his apartments last night could be heard the cries of Schaffner's daughter, now eight years old.

"Oh, Mr. Fireman, save him! Save him!" she shouted. "Where is he?" shouted William Myers, an engine unit. "He is in a corner of the room, and oh, do please hurry and save him!" she cried. "The he" was a Teddy bear.

Schlitz

with the Dinner

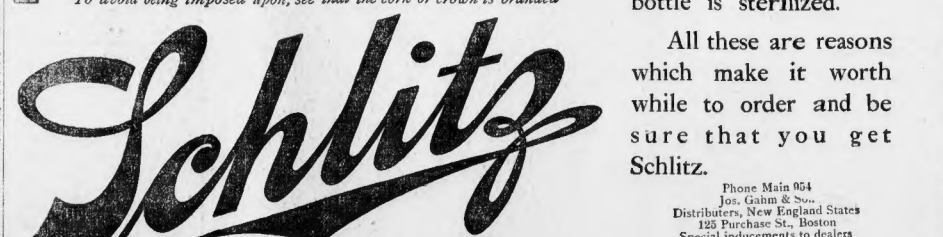

Schlitz Beer is more healthful than any wine. The small percentage of alcohol—only 3½—and the bitter of the hop are both aids to digestion.

The full flavor, too, adds a relish.

But most important of all is the purity for which Schlitz stands. It is brewed in cleanliness—cooled in filtered air, well aged so as not to cause biliousness, and every bottle is sterilized.

All these are reasons which make it worth while to order and be sure that you get Schlitz.

Ask the Brewery Bottling. Common beer is sometimes substituted for Schlitz. To avoid being imposed upon, see that the cork or crown is branded

SAYS CHURCH SHOULD REFUSE YOUTH'S CASH
"No church should receive money from such a man as John D. Rockefeller," declared the Rev. J. J. Helms, superintendent of the Morgan Memorial, before the Methodist Social Union at the Park Street Church last night.

"Arson, murder and the corruption of courts and legislatures are the means by which corporations like the Standard Oil Company obtain their great resources," he added.

Together with Mr. Helms, Henry Abrahams, the labor union addressed the gathering on "The Relation of the Christian Church to Labor." He said, in part: "The fellowship between the Methodist church and the labor union will, I believe, be the only fellowship that will be of any value to the people of this country. We look to the future of the church, and we look to the future of the people."

Mr. Abrahams then severely criticized the clergyman of the church, saying that they did not expose their true opinions for fear of public reprobation. "They fear that if they offend their congregation they will be looked for a new pulpit," he said.

He said that John D. Rockefeller, the Rev. W. B. Newell of Newburyport and the Rev. W. B. Newell of Newburyport, Boston, were the people's enemies.

Nellie spashes whole pots of gratitude down his neck, and then dashes for the subway with him. Eula and Ashley hike for the honeymoon and his million-dollar date. When they get there she finds Eula, who says, 'Roy wants you to go out of his life for good. He says you're a rotten girl, a real snooty when she said that, and Nellie just went away again.'

Now, I think that must have been for Nellie. PLAYERS, NOT PACKAGES, TO BE, ONE SAYS

Declaring that it is with the Harvard football players while on the field it is their fault and not the coaches is the statement made by Coach Crane in today's *Crimson*.

"In our present unfortunate condition in having lost two games to other colleges, there has been considerable criticism, naturally enough perhaps, of the coaching it has received this fall.

"That part of criticism directed at individual coaching in the fundamental principles of the game is not only unfair, but without foundation. My assistants, Cline, Lacey and Daly have given their best knowledge and endeavor to train their positions and individual plays thoroughly and any lack of result on the field is not due to them in any way, but to the men themselves.

"All I ask of you is that you give the team long heartiest support and encouragement at a time when it is harder for them than for you."

"Yale has a tremendously strong eleven this year, and we are now in a position where we have everything to win and nothing to lose for there is no disgrace in defeat for such a powerful team.

"I have every confidence in the spirit of the men, and I know they will render such an account of themselves that all of you will be honored to have had them represent you."

"FISHED OUT," BY CARICONIST TAD.

Breakers Ahead

The most eminent financial authorities in the land—men who can make or break good or bad times and who today control the industrial destiny of the country, have declared for a period of rest in business—for hard times. Make no mistake, they will have their way—they recognize that the cost of living is out of kilter; that things are altogether too high and must be lowered in price.
